Section 1. Introduction

Combined Training is a test of the horse and rider's ability to perform a simple dressage test followed by a straightforward show jumping round, both of which test the horse's obedience, suppleness and calmness.

The competitions covered by these rules and organised in the IPC Areas throughout the summer should be within the capability of most members who have attained the C Test standard. Members should be encouraged to take part as it provides the general experience necessary for the preparation and horsemanship required in most P.C. activities.

Section 2. Dress and Saddlery

Please refer to current Tack Sheet for the Discipline. Dressage Tack sheet for the Dressage Test and the Show Jumping Tack Sheet for the Jumping Phase of the Combined Training competition.

Electronic devices (ie headphones, mobile phones etc enabling another person to communicate with the rider) are not allowed. No recording device is permitted (eg head/bridle cameras etc).

Section 3. General Information for Competitors

Competitors must be *bona fide* members of the stated Branch of the IPC and have regularly attended rallies.

Section 4. Exercise Areas

1. Competitors must exercise their horses in the provided areas. **On the day of competition, horses may only be ridden by their competitors** or in exceptional circumstances by another member of the same Branch, only with the permission of the Chief Steward.
2. Persons other than the competitor may lunge a horse with the permission of the Chief Steward and landowner. Competitors observed using harness and/or gadgets in warm up, which are not allowed in competitions, will be eliminated. Lunging in side reins, but NOT bearing, check or balancing reins, is allowed when exercising or warming up, as is the wearing of boots and/or bandages.
3. For illustrations of permitted snaffle bits for Dressage, see Dressage section of the IPC Tack Sheet.

4. It is the RESPONSIBILITY of competitors that their dress and saddlery are in accordance with the current rules. Non-compliance will incur elimination.
5. Rapping is strictly prohibited and penalised by elimination.

Section 5. Notes for Competitors

Competitors will assist stewards in the efficient running of the event by:

- a. Presenting themselves to the Tack Steward before they are called into the Arena.
- b. Reporting their presence to the Class Steward while riding in, if possible, 20 minutes before their start time and being on hand to receive the signal to approach the Arena.
- c. By riding close to the Arena as soon as the previous competitor has made his exit.
- d. By ensuring that their dress and tack conform to the current rules.
- e. By taking care not to distract other competitors.

2. Where the perimeter of the Arena is wholly boarded, no marks may be given for a movement when the horse has placed all four feet outside the Arena. Where the Arena is partly boarded, or marked by a line, it is left to the discretion of the judge as to the marks deducted.

In the event of a tie, in the team competition, the collective marks (paces, impulsion, submission and rider position) of the 3 team members with the best results shall be added together to decide the highest placed team. If the collective marks are equal the result shall be declared a tie.

The Team competition is open to teams of three or four riders, under 21 years on 1st January, from the same Branch.

Individual Pure Dressage Competition is open to members under 23 years on 1st January. Special rosettes, to 10th place, will be awarded in this category.

7.1.1 Ride off

Top five placed competitors from each arena to include one pony (rider under 23 years on 1st January) and one junior on a horse greater than 148cm from each arena.

In the event of a tie in an arena, the collective marks are used to decide who should qualify for the ride off, once the pony and junior riders have been selected.

With this in mind each branch should put forward 8 names in order of preference. The members of the team **must** be declared before the competition begins.

Horse and rider may enter only once on a Team or as an Individual i.e. a horse may not be ridden by two riders, nor may a rider enter on two or more horses. However in a small Area with a small entry, a rider may compete H/C on a second horse at the discretion of the Organising Branch, but must declare the team horse before the competition begins and compete first on this horse. To compete without this declaration will eliminate both entries.

7.3 Qualification for IPC Championships

The two highest placed teams with 3 of their members having obtained a minimum total of 50% of the marks, from each Area will go forward to the Championships. If the overall winner or 2nd placed combination at an Area Qualifier is not on a team they qualify for the Championship but not otherwise ie individuals only qualify if their score is higher than those on teams.

Combinations MUST have competed at the Area Qualifier in order to compete at the Championships.

7.4 Eligibility of Horses

All horses or ponies competing at championship qualifiers must be 5 years of age or older. There is no height restriction on horses/ponies.

Horses registered Advanced Medium level or above, or with more than 250 points either currently with Dressage Ireland, or in the previous two years with Dressage Ireland, are not eligible.

7.5 Eligibility of Riders

All riders entered must be active members of the stated branch of the Irish Pony Club who have participated in a minimum of 3 working rallies since the 1st of July of the previous year, excluding team practices and coaching. The District Commissioner has discretion in the case of those who are working.

Section 8. Combined Training

8.1 General Rules

An Individual Competition, which consists of a Dressage Test and one round of Show Jumping, which should take place in that order. However, in junior competitions the jumping may take place before the dressage provided at least one hour is allowed between the two. Competitors must complete both Tests on the same horse. Elimination from one test involves elimination from the whole competition. A time limit of one hour may be introduced between completing the dressage test and presenting for the SJ phase, to be enforced at the discretion of the Chief Steward.

Horse and rider may enter only once as an Individual i.e. a horse may not be ridden by two riders, even if the riders are competing in different disciplines i.e. Pure Dressage and Combined Training or Pure Dressage and SJ, if they are competing on the same day. If the same horse/pony is ridden by siblings, only one of the two combinations may go forward to the Championships if qualified in each discipline of Pure Dressage and Combined Training. Nor may a rider enter on two or more horses. At the Area Qualifier a rider may compete H/C on a second horse at the discretion of the Organising Branch, but must declare the qualifying horse before the competition begins and compete first on this horse.

Members must qualify in their own Area. If the same combination of horse/pony and rider compete in Open or Intermediate Section of Eventing they must compete in the same class in Combined Training.

Combinations which compete at Intermediate level Show Jumping may compete in Junior Combined Training if the rider is aged under 15 yrs. on January 1st of the current year.

Combinations which have competed and completed the course at Eventing Ireland Two Star Pony Events or One Star Horse Events are ineligible at Pony Club Intermediate and Junior level.

8.2 Scoring NB different from previous Rules

Dressage: the judge's good marks shall be added together and any penalties awarded shall be deducted. Multiply the result by 100 and divide it by the maximum mark obtainable. The result is the percentage score for the dressage test.

SJ: The penalties incurred for the jumping test are deducted from the percentage score awarded for the dressage test. The competitor with the highest score is the

winner; their final marks having deducted any jumping penalties must still be a minimum of 50% of the dressage score.

Ties: If two or more competitors complete both phases with the same total score; the competitor with the highest Dressage score wins. In the event of a tied dressage score the collective marks (eg paces, impulsion, submission and rider position) shall be totalled to decide the highest placed individual competitor. If the collective marks are equal, the competitor with the highest marks for individual dressage movements wins: ie the competitor with the highest number of scores of 10 wins; if neither competitor scored any tens, then the competitor with the highest number of scores of 9 wins; if neither competitor scored any nines then the competitor with the highest number of scores of 8 wins, and so on.

APPENDIX

Dressage Ireland Guidelines for payment of travel expenses to Dressage Judges

- 50 cent per km (200 km return = €100)
- Advised minimum is €70, if judges work a long day, some adjustment would be appreciated (e.g. to €100?)
- Easiest is to ask for the kilometres driven when judges arrive and pay expenses accordingly when they leave.
- Some organisations and regions limit this to €130 or don't book judges that have to travel in excess of 250-300 km.
- Short distances travelled would still expect expense of €70, especially now with the high cost of fuel.
